- Direct Funding

Work With Us

Whether you are getting involved in research and development for the first time or looking to expand your research and development activities, we want to make it possible for you to succeed. We can help you access world leading facilities and expertise to aid your R&D requirements.

“My company partnered with TU Dublin on cutting-edge product development. My experience to date has been fantastic. From the exceptional product work completed by John Walsh in the School of Creative Arts to the superb support offered by TU Dublin Hothouse throughout, I would highly recommend working with TU Dublin.”

Gerard Crofts, Company Director,
Siesta Sofas Limited

Service Development

TU Dublin Hothouse is the award-winning Knowledge Transfer and Incubation Centre (Greenway Hub) located on the Grangegorman Campus in TU Dublin. Our incubator clients include TU Dublin Spinouts; Kastus®, Micron Agritech and Ocumetra.

TU Dublin Hothouse are responsible for the commercialisation of intellectual property arising from TU Dublin research. We are the hub of innovation and technology transfer activities and have a range of spinout technologies available to industry across Life Sciences, Food, ICT, Software, Industrial Technology, Manufacturing and Clean Technologies. Our team works with students, lecturers and research teams across TU Dublin as well as with entrepreneurs, industry leaders and investors.

Since the formation of TU Dublin Hothouse and the Knowledge Transfer Office in 2007, TU Dublin has:

- 18 Patents Granted
- 124 Patent Applications filed
- 523 Invention Disclosures
- 196 License Agreements
- 44 TU Dublin Spinouts
- €170M+ in revenue
- €200M+ Equity Investment
- Collaborated with over 1000 industry projects.

Open Labs is a pioneering Research and Development outreach initiative from TU Dublin Hothouse and has supported over 150 start-ups and SMEs to develop new products and services since it was established in 2018. During that time, it has generated over €1.5m in research income and has provided industry sectors that are critical to the Irish economy with access to over 600 researchers and to high-tech facilities to support early-stage research and innovation.

Food Innovation Lab

- New Food & Beverage Development – Idea Generation to Product Launch
- Food & Beverage Optimisation
- Food & Beverage Analysis
- Market Feasibility Analysis

Design Lab

- Product Development
- Design for Manufacture
- Prototyping/Rapid Prototyping
- Computer Aided Design (CAD)

Virtual Reality Lab

- Virtual Reality / Augmented Reality Programming and Development
- Game Design
- User Interaction Design (UID)
- User Experience (UX)

Data Analytics and Artificial Intelligence

- Intelligent Analytic Interfaces
- Changing User, Behaviour & Analytics
- Data Management for Analytics
- Predictive Analytics

Innovative Coatings & Surface Treatments

- Protective Coatings
- Metal Finishing
- Biomedical Device Adhesion Technology
- Solvent, Water Borne and Powder Coatings

Sustainable Infrastructure and Buildings Research

- Building Systems, Structures and Materials
- Water, Catchment, Coastal and Harbour Engineering
- Soil Mechanics and Geotechnics
- Laboratory Testing, Modelling and Simulation
